

# *In Just a Few Hours, We Can Make your Home the Best it Can Be...*

## **What is Interior Redesign?**

*See your home in a whole new light!*

We take YOUR furniture, artwork, and collections and re-arrange these special treasures to best complement your space.

- Have you tried to move your furniture and just can't find a way that works?
- Do you want your home to have a refreshed look but ***don't want to spend a lot of money?***
- Would you love your home to highlight your own personality and not the taste of an interior designer?

**Then, give us a call and we will do a makeover of your space—whether one room or an entire house—within a matter of hours.**

## **Color Consultation for your Home**

Color is a wonderful tool for creating a beautiful home environment. Less than 15% of people have the ability to visualize how a room will look in a different color. We will help you select color schemes that will please both the eye and psyche.

We work with our clients to identify their ***color personality***. We assist them in building confidence to create an interesting environment that highlights existing furnishings, artwork and treasured objects.

## **Curb Appeal**

The first impression of your home is from the curb. Whether it is a potential buyer or a friend stopping by to visit, how your home looks from outside will produce an impact—whether positive, negative or neutral. We can make suggestions to make certain this initial reaction is a favorable one.

## **Settling In**

***Get off to the right start!*** You just moved to your new home, opened cartons, unpacked and now wonder how your old possessions will possibly work in the new space. Much like our redesign service, we can help you get settled in quickly to enjoy the comfort of your new home as soon as possible. We can also help you pick the right colors for your new space, if you don't care for those you have just inherited!

## **Staging for Sale**

To attract buyers and get as much as possible for your home, it needs to make an excellent first impression.

Realtors bring clients to homes that “show” the best. By staging your home, we highlight the best features and minimize the flaws.

We create an ***“ambiance”*** to help potential buyers see how comfortable and attractive the home can be.

## **The Ambiance Team**

***Julienne Brown*** has extensive experience in home decorating & redesign, as well as landscaping, painting and home textile design.

***Merle-Dean Sanchez***

has a background in art education and an extensive knowledge of color and design. She is a noted professional make-up artist. She has done TV and stage set design, as well as home staging and redesign.

We have worked together as Ambiance for over 5 years.
